NASA SEWP VI

Solutions for Enterprise-Wide Procurement

Government-Wide Acquisition Contract (GWAC) · Category A, IT Solutions

Contract Holder Ordering Guide

SEWP VI OVERVIEW

The purpose of the NASA SEWP VI GWAC is to provide federal agencies with streamlined access to a broad range of commercial IT products and services — including hardware, software, cloud computing, cybersecurity tools, engineering and consulting services, and data-intensive mission support capabilities — across three competitive categories: Category A, IT Solutions; Category B, Enterprise-Wide IT Service Solutions; and Category C, IT Mission-Based Services.

Federal agencies across the government can use this GWAC to acquire IT products and associated services. The GWAC is an IDIQ contract against which agencies can issue task orders for their specific requirements, using pricing arrangements such as firm-fixed-price, labor-hour, and time-and-materials. The focus of this contract is to provide government agencies with a mechanism for streamlined ordering of needed IT products and services at equitable and reasonable prices.

SEWP contracts can be used by the entire Federal Government due to NASA's designation as an Executive Agent by OMB, thanks to the Information Technology Management Reform Act (ITMRA) of 1996, known as the Clinger-Cohen Act.

FAIR OPPORTUNITY

> *Clause A.1.21. Fair Opportunity and Requests for Quotes — "Contractors will be provided fair opportunity at the individual order level as appropriate per FAR Part 16.505(b), including the SEWP RFQ tools. No documentation for the order selection is required to be submitted with the order. All such documentation is to be maintained by the issuing procurement office."*

ABOUT ADVANCED COMPUTER CONCEPTS (ACC)

Advanced Computer Concepts (ACC) is a Woman-Owned Small Business (WOSB) located in McLean, VA. Founded in 1982, ACC has more than four decades of experience providing value-added reseller (VAR) services to government and commercial clients, and ranked among the top 15 vendors by sales on NASA's SEWP V contract vehicle. Our goal is to provide the best combination of product and service at competitive prices. To do this, we control our costs so that we can provide the best possible prices to our clients, and we work closely with our Original Equipment Manufacturers (OEM) and/or distributors to obtain the best prices, passing along discounts to our customers.

What's In Scope for SEWP VI?

SEWP is designed to provide a broad suite of Information Technology, Communication and Audio-Visual (ITC/AV) solutions and services. Technology is ever-evolving, and for that reason SEWP's processes enable Contract Holders to add new commercial technology and IT services to their contract daily, as requested by customers. The focus of SEWP is on the full suite of technology offerings that simplify governmental access and industry offerings across the entire ITC/AV solutions and services landscape.

The SEWP contracts were awarded by scope category. If you would like SEWP to determine whether your requirement is within scope of the SEWP VI contract, please send an overview and/or bill of materials (BOM) to **help@sewp.nasa.gov** for a quick review.

CATEGORY A

ITC/AV (Information Technology, Communications, and Audio-Visual Solutions)

CATEGORY B

Enterprise-Wide ITC/AV Service Solutions

CATEGORY C

ITC/AV Mission-Based Services

ORDERING PROCESS

The internal ordering process of each agency varies. The process and accompanying forms for Purchase Requests (PR) and Delivery Orders (DO) issued against a SEWP contract are defined by the issuing agency, not the NASA SEWP Program Management Office (PMO). Typically, an end-user determines a requirement and generates a Purchase Request, which — along with any necessary funding information — is sent to that agency's procurement office and results in the issuance of a Delivery Order. Any valid federal agency DO form, and its associated Delivery Order number, may be used.

The NASA SEWP PMO does not issue Delivery Orders; these must be issued through the issuing agency's procurement office. The PMO reviews, processes, and tracks issued DOs and forwards them to the Contract Holder(s). It is the issuing agency's Contracting Officer's (CO/KO) responsibility to be aware of any agency-specific policies regarding issuing orders via GWACs. There is no requirement under the SEWP contracts for issuing agencies to use intermediary procurement offices, except as directed by their own internal policies. Modifications to any order must also route through the SEWP PMO.

The SEWP online Quote Request Tool (QRT) is the recommended and NASA SEWP Program Office–mandated method for obtaining quotes within the NASA SEWP contract, and automatically routes requests to the Contract Holders within a selected Category, or to a suggested source, augmenting the required fair-opportunity decision documentation.

SEWP AT A GLANCE

1992 Program established; SEWP I awarded 1993 — the first GWAC in the federal acquisition space

$20B Per-contract ceiling under SEWP VI Category A

35,000+ Registered federal government customers across every agency

0.34% Base contract fee — the lowest among federal IT GWACs, down from 2.6% at program start

4.2M+ ITC products and services available through the SEWP catalog

#1 NASA SEWP processes more orders than any other Best-in-Class IT GWAC combined

Ordering & Support Information

CONTRACT OFFERINGS

- Analysts
- Cabinets / Enclosures
- Cables / Wiring
- Communication Devices
- Computer Security Technology
- Computer System
- Digital Image Tools
- Documentation
- Input/Output Device
- Installation
- Maintenance / Warranty
- Networking Equipment
- Data Acquisition Technology
- Power Related Technology
- Software
- Storage Device
- System Service Fee
- Training
- Video Conferencing Tools

How to Obtain a Quote

Quotes for hardware, software, and services are obtained through the SEWP online Quote Request Tool (QRT), as mandated by the NASA SEWP Program Office. ACC's SEWP Program Manager and sales team are available to assist with any quote: contact **SEWPsales@acc.net** or call **703-276-7800**. Product information is also available through ACC's Online Store at **store.acc.net**.

Installation

ACC employs engineers with expertise across the IT industry to provide installation and support services.

Basic & Extended Warranty

Basic warranty is provided by each manufacturer and varies by product. Extended warranty offerings are available from various OEMs, covering periods of 12, 24, 36, 48, or 60 months (not all coverage periods are available from all manufacturers). ACC provides all necessary information and assistance to obtain warranty entitlements.

Order Issues & Troubleshooting

The main point of contact for a specific order is the sales representative listed on the order. Order-related questions can also be directed to **orders@acc.net**.

Customer Service

For delivery and post-delivery issues, contact **SEWPservice@acc.net** or call **703-276-7800**.

Technical Support

Technical support is available anytime at **helpdesk@acc.net** or by calling **800-374-7517**.
